Fluke / Sea Bass Bluefin Dockside

Layday Guidelines

Layday forms are designed to designate the days that you will not be offshore fishing. It allows the committee to monitor boats and keep track of who is offshore. This form must be turned in by 9am on the days that you are laying to, prior to your Offshore fishing days. Once your Offshore fishing days have been completed this form becomes only a curtousy to the committee. When laying to, please circle what your intentions for the day are above. This form can be dropped off to Kerry or Kyle at Payne's weigh station, while they are checking docks, via text message, or dropped off at the New Harbor Boat Basin dock office. If you leave the harbor for offshore fishing but need to change to a layday you must declare that layday prior to 9am., on the first day of fishing. Your return must be approved by the tournament committee.
